

# Sameer Ahmad

sameer\_9291@hotmail.com +44-7375116969

8 years of experience developing reliable web applications and backend system. I am eager to writing clear, concise code that is easy to maintain and troubleshoot. I have worked on wide variety of technologies, such as Typescript, Javascript, C#, NodeJS, NestJS, Golang, ReactJS. I enjoy developing app whether it's microservices, a single-page app, API, Frontend or testing.

Urdu

## REFERENCES

He is a detail oriented and organized resource a manager would love working with. His development skills are commendable. He is a quick learner and detail oriented professional. His hardworking and striving skills to achieve for the best; distinguish from other. He is one of the rare resources, I have worked with, to whom you can rely on. I wish him good luck for future endeavors.

— Usman Parvez

---

Sameer Ahmad was one of the best resource in my team. He has excellent social and technical skills which make him stand out from the crowd. His ability to take on tasks beyond his knowledge was commendable as he never said no to an assigned task and was always willing to go above and beyond to research and resolve / complete them. I wouldn't think twice about taking him on my team whenever given a chance.

— Muhammad Imran
